

KIDS TOGETHER AGAINST CANCER

SUPPORT FOR FAMILIES DEALING WITH A PARENT'S CANCER JOURNEY

How to Ease Your Child's Fear About Your Cancer Diagnosis

KTAC provides families with the helping hands they need during their cancer experience.

A cancer diagnosis for a parent or caregiver can be overwhelming for a family. It is not easy talking to your children about your diagnosis. **KTAC, Kids Together Against Cancer**, was developed to help parents and caregivers provide their children with the coping skills needed for this journey.

KTAC offers a six week workshop with trained professionals for parents and children ages 5 to 17. The activities allow children to share their feelings in an uplifting and positive environment. There is no cost to participate but space is limited. For details about the **KTAC** six week workshops or to register, log on to ktacjax.com

This community-based program was developed through the generous support of the Rice Family Foundation working in conjunction with the St. Vincent's Foundation. Other partners in the project are Riverside Presbyterian Day School and the Cummer Museum of Art & Gardens.

Dates for the **KTAC** programs in 2011 are:

WINTER February (2011) 1, 8, 15, 22, March 1, 8

SPRING April (2011) 19, 26, May 3, 10, 17, 24

SUMMER July (2011) 12, 19, 26, August 2, 9, 16

FALL September (2011) 20, 27, October 4, 11, 18, 23
