

LACE UP TO BEAT CANCER

shubeez are unique collectible shoe tags that attach securely to the laces of any athletic footwear. Our goal is encourage communities to lace up and get moving. Whether you are looking to create awareness, raise funds, or celebrate an achievement, shubeez provides a fun way for race participants to display their accomplishments and goals proudly. You can wear this on your shoe as a symbol of your commitment to a healthy and active lifestyle that will help prevent and beat cancer. This campaign is in collaboration with Shannon Miller Lifestyle and designed to support all participating cancer organizations as we work together to find a cure. \$1 dollar from every individual sale and \$10 from all bulk orders will go back to a sponsored beneficiary. Small local foundations can buy wholesale and use this as a fundraising opportunity.

Let's lace up to beat cancer, one step at a time!
